*God is
transforming lives
all over the world,
and we can all be
a part of it.*

*Brad Johnson
President*

For almost 25 years, God has been transforming lives through Mission of Hope. Children are receiving daily, nutritious meals. Students are receiving a quality, Christ-centered education. The sick and injured are receiving life-changing medical care. Lives and communities are being transformed through the gospel of Jesus Christ.

We believe nations can be changed—one life at a time—through people like you who say “yes” to helping those in need.

God has equipped each of us uniquely to contribute to His great mission of transforming lives all over the world. In this report, you will learn about the great needs and the even greater hope that we have the opportunity to offer. As you read through these pages, will you pray and ask God how He wants you to be a part of it?

Together we can help bring life transformation to every man, woman, and child through Jesus Christ.

We look forward to working together in 2023—and in the years to come.

Till not one is left,

Brad Johnson
President
Mission of Hope

TRANSFORMING LIVES

As an organization following Jesus Christ, Mission of Hope exists to bring life transformation to every man, woman, and child. With campuses in the Caribbean, we partner with local churches to transform lives through church advancement, nutrition, education, and medical care.

BY SEEING, FEELING, AND HEARING THE GOSPEL.**

CHURCH ADVANCEMENT

Local churches are at the center of everything we do. You can help empower local pastors and strengthen local churches to transform their communities and their nation.

PASTOR PETITPHAR'S LEGACY

DOMINICAN REPUBLIC

Servant-hearted. Joyful. Kind. Humble. Courageous. These are all words that have been used to describe Pastor Petitphar, a pastor we had the honor to serve alongside for years in the Dominican Republic.

In the fall of 2022, Pastor Petitphar passed away unexpectedly. He lived an extraordinarily impactful life, filled with stories of serving his congregation, community, neighbors, and family. If you've served on a HopeGo trip to the Dominican Republic with Mission of Hope, you may have worked with Pastor Petitphar. Many have directly seen his and his precious wife's impact on the community. Pastor Petitphar was a Haitian man who experienced the trials of navigating life in the Dominican Republic, where racial tensions between the two cultures are high. The tension never stopped him from seeing every person as an image-bearer of God, full of dignity, value, and worth.

After his passing, several Mission of Hope staff went to be with his wife and reflect on the impactful life of her husband. While shocked and saddened by the loss of her husband, she had an unshakable faith that Petitphar was face-to-faith with Jesus—a place he'd fixed his hope on every day on earth.

The room was packed full on the day of Pastor Petitphar's funeral. Several pastors we partner with came to the funeral to honor their brother in Christ. Pastor Elbis, a Dominican pastor, went to the funeral in a community of predominately Haitians. In the current political climate, people were shocked to see a Dominican in a Haitian church—but Pastor Elbis didn't think twice about it. Pastor Petitphar was a brother, a friend, and a co-laborer in the Gospel. His life and his legacy were all unifying people around the truth of Jesus.

We rejoice as we continue to see reconciliation between Haitians and Dominicans across the island of Hispaniola and how our Church Advancement team is leading with excellence to bring to gospel to every man, woman, and child.

NUTRITION

Good nutrition is the foundation for healthy bodies and minds. By providing access to a continuum of resources from education to meals to sustainability, Mission of Hope is committed to meeting this basic need and combating malnutrition and starvation.

FARM FIELD SCHOOL GRADUATION

HAITI

An important part of ministry at Mission of Hope is the agriculture program and the Farm Field School in Marmelade, Haiti. The farmers at our Farm Field School recently celebrated their fifth graduating class, consisting of 36 farmers! Each farmer received a certificate as a testament to their dedication during the two years of training. The graduation ceremony provides the opportunity to honor the farmers, involve the community, and celebrate the hard labor the farmers have poured into their crops.

The ceremony started with a procession of the recipients accompanied by a local orchestra. Celebration filled the streets and many from the community gathered, including local authorities, neighbors, friends, and families.

The graduates thanked God for His grace, the gift of having a school like this in their community, and everyone who, in one way or another, contributed to the success and implementation of the project.

Graduates shared their testimony and explained the changes that God brought to their life during the two years of training. Two of the farmers made the decision to follow Jesus throughout their time at the school. Praise God for life transformation!

Then He said to His disciples, “The harvest is plentiful, but the laborers are few; therefore pray earnestly to the Lord of the harvest to send out laborers into His harvest.”

EDUCATION

The most powerful way to change a nation is by starting with a quality, Christ-centered education. Investing in students' academic and spiritual growth develops leaders that bring hope for the future..

MADAME FLORE-ANNE

HAITI

Flore-Anne Jean, also known as Madame Flore, is the Mission of Hope Education Superintendent in Haiti. She is full of passion, drive, and commitment to seeing children in her country have the opportunity to receive a quality, Christ-centered education. Madame Flore also works closely with our Women's Empowerment team in Haiti. Every time we talk with her, she shares another story about the impact the ministry has on young girls, moms, and women in Haiti.

This year at Mission of Hope's high school graduation, Flore's love for her students was evident as they received their diplomas and celebrated the tremendous milestone of graduating.

Enjoy learning more about Madame Flore's story:

It took me seven years of study at university to get where I am today—an Education Superintendent. I completed secondary school in my hometown at Camp-Perrin, and it was hard to leave my family, my brother, and my sister, to come to Port-au-Prince for university since I had never been away from home before. I had some financial obstacles, especially when getting my Master's Degree in Education, but I worked very hard and used almost all of my salary just to pay for my schooling.

The hardest part of my job is when our team works to have a plan for the school year, but then a political or health situation ruins the plan! The best part of my job is contributing to the education of the children of my country.

MEDICAL CARE

By meeting medical needs of those who are sick, people experience relief and hope in the midst of their pain. Physical healing often opens the door for spiritual conversations and is vital to the holistic life transformation taking place at Mission of Hope.

VIVIANA

DOMINICAN REPUBLIC

Hearing the news that a medical team was coming to serve people in her community, Viviana muscled up the courage to go to the mobile medical clinic for help. Nine months pregnant, alone, and due to give birth within the next couple of weeks, Viviana was nervous. The father of her baby was not in the picture. She had not once been seen by a doctor—nine months of no prenatal care. She didn’t even know if she was having a baby girl or a boy.

When checking her vitals, it was clear that Viviana’s blood pressure was very high. The medical professionals on our team were concerned about preeclampsia. They immediately knew that she needed to be seen by an OBGYN. Pastor Diony called his friend, who is an OBGYN, and he agreed to see Viviana the very next morning. A church member of Pastor Diony’s

volunteered to drive her to the appointment so she could get the care she needed. It was a powerful picture of the church gathering around a scared mom and walking through life with her.

Our medical team checked in on Viviana after her appointment, and they happened to have the exact medicine she had a prescription for. She also excitedly said that she found out the baby was a boy and that her due date was just two weeks away!

The anxieties and the health problems she was having started to subside, and her face brightened. She knew that God cared for her. She shared that she had given her life to Christ years ago but had not been living for Him. Right there at the mobile medical clinic, she rededicated her life to Christ and committed to raising her son to know and love Jesus, too. Praise God for the courageous woman that Viviana is! Please pray that God protects her and her son and that they experience His provision each and every day.

DISASTER RESPONSE

Mission of Hope has been one of the first to step in and meet needs during times of disaster, and this year was no different. Our partner network makes for efficient and effective distribution, alongside the local church, to get critical aid to those who need it most.

HIGUEY

DOMINICAN REPUBLIC

This fall, Hurricane Fiona hit the Dominican Republic and caused widespread damage on the eastern side of the island. Mission of Hope responded quickly and through rapid assessments determined hundreds of families in the community of Higüey were in need of aid to help them rebuild during that difficult time.

In coordination with the local government, local churches, pastors, businesses, and organizations, Mission of Hope distributed food, hygiene kits, tarps, and clothing donations to those who were hit hardest and in the most vulnerable situations.

INDIVIDUALS SERVED THROUGH:

Food
Distribution

Hygiene
Kits

Water
Distribution

Shelter

Medical Care

Some specific ways we saw God at work:

- Local government accepted a disaster response proposal and provided support with security and labor
- Agreed to distribute through local pastors
- Pastors we work with in Santiago and their congregations donated, volunteered, and stepped in to serve their neighbors who were hit
- Local businesses jumped in to donate, serve, and support local churches

I have told you these things, so that in me you may have peace. In this world you will have trouble. But take heart! I have overcome the world.

John 16:33

TEAM HOPE

ABOUT

Team Hope is a team of people committed to meeting the most critical needs. It's a community who believes that we can do more good—for more people—if we work together, until the lives of every man, woman, and child are transformed.

4.5 million

In a food
insecurity crisis¹

1.3 million

In a state of
food emergency¹

THE NEED

Right now the most critical need in Haiti is food. Due to rising inflation, political instability, and the devaluation of the Haitian gourde, 4.4 million people in Haiti are in a food insecurity crisis. Now food is more expensive, and their money is worth less. One mother told us it feels like her bread is shrinking.

Although we serve over 116,000 meals to students in our nutrition program every day, **there are over 73,000 kids on our waiting list at the start of 2023** who are also in desperate need.

GET INVOLVED

We believe the current reality in Haiti doesn't have to be this way.

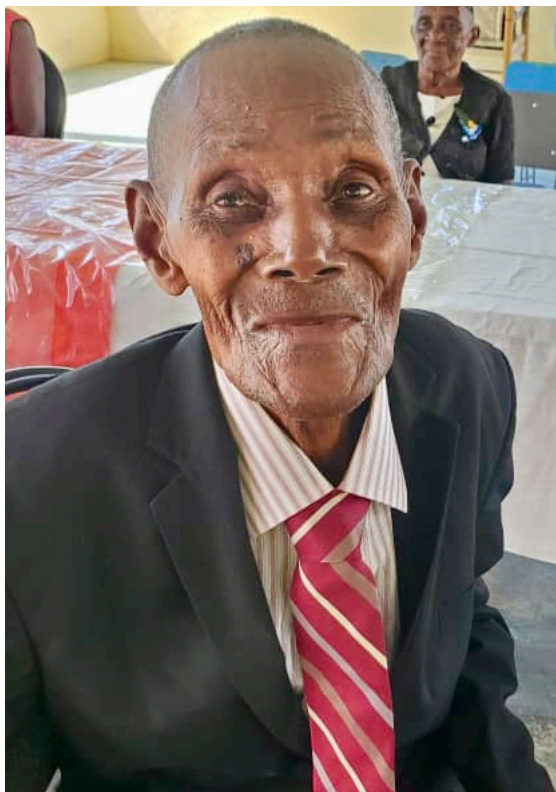

It only costs about \$10/month to provide one hot, nutritious meal every day.

For many, this will be the only meal they have. Whether you can provide meals for one child or 1,000, you'll be making a real difference in real people's lives.

FOR MORE INFORMATION**

SPONSORSHIP

STUDENT

\$39/MONTH or \$468/YEAR

Give a student in Haiti a quality, Christ-centered education.

Sponsorship Provides

- Christ-centered curriculum
- Daily, nutritious meal
- Teacher training
- School-specific improvement initiatives

VILLAGE OF HOPE

\$50/MONTH or \$600/YEAR

The Village of Hope is Mission of Hope's orphanage at our campus in Titanyen, Haiti. Our kids are raised in a Christ-centered, family environment where they can grow and thrive.

Sponsorship Provides:

- School and tutoring
- Three balanced meals per day
- Housing, utilities, maintenance, and security
- Personal care and hygiene
- Discipleship and mentoring
- Transportation
- Extra-curricular activities

GRACE HOUSE

\$50/MONTH or \$600/YEAR

The Grace House is an assisted living facility built to address the need for elderly care in Haiti.

Sponsorship Provides:

- A safe, clean place to live
- Three meals a day
- Daily and end of life medical care
- Full-time on-site caregivers
- Daily activities
- Funeral and burial expenses

MISSION TRIPS

Step out of your comfort zone, experience a different culture, and encounter God like never before. On a HopeGo trip, you will serve alongside local churches and leaders to help meet the needs of the people in their communities. We take care of the logistics for you, including ground transportation, meals, lodging, and more, so you can focus on ministry and the needs of your team.

HOPEGO DESTINATIONS

HAITI

DOMINICAN
REPUBLIC

GROUPS AND INDIVIDUALS

Why should you join us on a trip?

- Experience: we coordinate thousands of trips
- Affordable prices
- 50 weeks available every year
- Environment for spiritual growth
- Serve alongside the local church

MEDICAL

Why join our medical mission trips?

- Bring medical care to communities via a mobile medical clinic
- Build relationships with patients you treat
- Meet physical and spiritual needs
- Serve four full days on medical clinics
- Use your skills to help people in need

MEAL PACKING

We partner with businesses, churches, and schools around North America to organize and host meal packing events so that we can provide food for children at nearly 500 schools and orphanages across Haiti.

When you fill a gym, church hall, or sports arena with busy tables, the output is jaw-dropping and life-saving. Every meal pack event is a lively, community-building experience. As a volunteer, you'll work side-by-side with friends, family, coworkers, or other like-minded people to package meals. We welcome volunteers of all ages and backgrounds.

HOW IT WORKS

Choose Event

Packing
Goal

Raise Funds
for Meals
(30c / meal)

Provide
Volunteers
for the Event

Mission of Hope partners with several meal packing organizations. These organizations procure the bulk food, transport food to your event, provide all packing equipment, and secure shipping to Haiti. In most situations, the host is responsible to raise funds, recruit volunteers, reserve event location, and provide tables and extension cords.

GET INVOLVED

PRAY

Pray that God provides for every man, woman, and child in need and that each will be transformed by a personal relationship with Jesus Christ. As we meet people's physical needs, this creates an openness to the gospel so that God can meet their spiritual needs. Your prayers are powerful and effective as God works in their lives and in their hearts.

GIVE

Your generosity will help reach more people and meet the greatest needs in the countries in which we serve. Over 90% of every dollar given goes to support program activities in the countries we serve. All of our programs are carefully and consistently monitored to ensure maximum impact for the people of Haiti, the Dominican Republic, and throughout the Caribbean.

Visit missionofhope.com to learn about the many ways you can transform a life .

GO

Step out of your comfort zone, experience a different culture, and encounter God like never before. On a HopeGo trip, you will serve alongside local churches and leaders to help meet the needs of the people in their communities. Help share the hope of Jesus as we work together to bring life transformation to every man, woman, and child.
